## **NEWS RELEASE**

### ***SBA TOPS \$1 MILLION IN NEW JERSEY***

**MT. LAUREL, NJ** – The U.S. Small Business Administration announced today that more than \$1 million in disaster loans has been approved to area residents for damages associated with the severe storms and flooding that impacted New Jersey in July.

“As of today, SBA has approved 23 disaster loans for \$1,266,500 to homeowners, renters and business owners that suffered losses as a result of this event,” said SBA Area Director William E. Leggiero, Jr. “New Jersey residents and business owners have demonstrated their resiliency in the aftermath of this devastating disaster. These loans will help individuals and businesses repair or replace their disaster-damaged property, and will also help small businesses replenish working capital,” Leggiero added.

Since 1989, SBA has invested more than \$230 million in the State of New Jersey through its disaster loan program.

SBA disaster loans are a critical source of economic stimulation in disaster-ravaged communities, helping spur employment and stabilize tax bases. When a disaster occurs, SBA helps homeowners, renters, businesses of all sizes and nonprofit organizations, fund repairs and rebuilding efforts, and cover the cost of replacing lost or damaged personal property.

Small businesses may also be eligible for Economic Injury Disaster Loans (EIDLs), which provide needed working capital until normal operations resume after a disaster. These loans cover operating expenses the business could have paid had the disaster not occurred.

Individuals and businesses have until September 14, 2004 to apply for funds to repair or replace disaster-damaged real or personal property. Small business owners interested in applying for EIDLs may do so until April 18, 2005. Completed loan applications may be returned to: U.S. Small Business Administration, 360 Rainbow Boulevard, So., Niagara Falls, New York 14303.
